

## Disability Documentation Requirements

New incoming students will first need to complete the Accessibility Team Registration Intake document. They MUST also provide one of the following documents listed below.

Returning students will need to have completed one of the following documents listed in the table below, to continue with an accommodation. Some returning students will already have one of these documents on file.

This is a guide and not an exhaustive list of possible diagnoses. A student MUST provide at least one of the following documents and it MUST include the list of recommended accommodations the student requires to be successful in their studies. Only items listed on the relevant documentation will be considered and not items self-identified on their Accessibility Office Intake form. As a note, information on the OSAP Disability Verification Form (DVF) is a supplementary document used to make accommodations but is in addition to one of the documents listed below.

Disability Diagnosis	Required Documentation – one of the following
<b>Physical Disabilities:</b> vision, hearing, speech, functional mobility issues – paraplegic, quadriplegic, muscular dystrophy, MS, cerebral palsy, spina bifida	<ul style="list-style-type: none"> <li>• <a href="#">Heritage Visual Disability Verification Form</a></li> <li>• <a href="#">Heritage Hearing Disability Verification Form</a></li> <li>• <a href="#">Heritage Physical and-or Mobility Disability Verification Form</a></li> </ul>
